

Caregiver OF THE MONTH

Carla Fonner has been named **Moran & Goebel's September Caregiver of the Month**

Carla Fonner has been a private home health care worker for over 25 years. Her first client was her grandmother, who suffered a stroke and needed assistance to stay in her home. From that beginning, Carla has helped many people in the Central Illinois area when they fall ill or are injured. Carla often spends months with her clients and develops a bond with them. Of course, many of Carla's patients are terminally ill, and she said the only bad part about the work she does is losing patients she's grown close to.

"Once in a while I care for people with a broken bone or who have been in a car accident. Those are the good scenarios, because they get better."

Carla is a Certified Nurse Assistant, but gained the skills to be a caregiver through her first jobs as wife and mother.

"Each home I go into, I always tell people – everything is different, but everything is the same. People are different in terms of their individual needs, but they all need loving care."

The Caregiver of the Month program honors Carla Fonner and the many others like her for the amazing work they do every day. We extend our thanks and pray that others continue to follow her example.
